

FLAGPOLE LIGHTING – LED SOLAR LAMP

The solar lamp with LED lighting is suitable for use with all the types of flagpoles we offer. It is a very good solution to cover and illuminate the flagpole top. It needs no cabling because it is powered by solar batteries (it is supplied with solar energy all day long). The lamp will illuminate the flag from dusk till dawn.

TECHNICAL SPECIFICATIONS

Solar panel	6V/1,8W 19% polysilicon
Batteries	1.2V 2200mAh x 3 AA NiMh chargeable batteries
LED	26 pieces
Switch	ON/OFF
Material	ABS + PC (to prevent ageing, yellowing and corrosion)
Charging mode	Charging with solar batteries
Charging time	3-4 hours
Operation	Automatic switch off from dawn till dusk
Lighting time	Up to 8 hours
Mounting hole diameter	15mm
Fastening bolt	M8x30
Ingress protection	IP 65
Product weight	0.53kg
Packaging dimensions	23.5x23.8x5.3mm
